Testimonials - online projects

“ Thank you for the development of an updated brand image for Wah Yuet in China. While originally contracted to produce a video highlighting Wah Yuet's manufacturing capabilities, it was apparent very quickly that your understanding of our requirements, combined with your experience, were the perfect fit to create a new logo and style guidelines for the company. While relatively small in scope, you were dedicated to the success of the project and I am pleased to say that you hit the bullseye!
